

November 13, Monday

Room	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	18:00	19:00	20:00	21:00
Theater (Room h)		Plenary Lecture PL1	Plenary Lecture PL2				Symposium S1h1 Antimicrobial Peptides and Membrane Interactions							
A1 (Room c)		Opening					Symposium S1c1 Micro/nanodevices for biophysical measurements		Symposium S1c2 Protein hydration and dynamics studied on pressure-axis					
A2 (Room d)							Symposium S1d1 Structure and Function of Weak Interactions in Protein Molecules		Symposium S1d2 Dynamical Structures and Signaling Mechanism of Sensor Metalloproteins					
B1 (Room e)							Symposium S1e1 Unraveling the membrane microdomains using new biophysical tools		Symposium S1e2 New Biomembrane Model Systems, Giant Liposomes and Supported Planar Bilayers, for Probing Biomembrane Structure and Function, and Creation of De Novo Functional Membrane Systems					
B5+B6+B7 (Room f)							Symposium S1f1 Structural chemical studies on physiological functions of proteins		Symposium S1f2 Functions and dynamics of protein systems in various aspects					
B2 (Room g)							Symposium S1g1 Molecular Mechanisms of Axon Targeting and Synaptogenesis		BSJ meeting S1g2 Early research in Biophysics award Candidate Presentation					
Event Hall		Poster Set-up 1Pxxx		Poster Presentation 1Pxxx Odd Num.	Poster Display 1Pxxx									
		Scientific Exhibition												
Lobby	Registration
